3.0 MAJOR INGREDIENT INFORMATION

100% Essential Oil of Frankincense.

4.0 FIRST AID MEASURES

Inhalation: Remove from exposure area to fresh air. Contact a doctor if necessary.

Ingestion: Wash mouth out with water and obtain medical advice immediately.

Skin Contact: Remove contaminated clothing. Wash thoroughly with soap and water. Seek medical advice if irritation persists or there is any sign of tissue damage.

Eye Contact: Flush with plenty of water and seek medical advice if necessary.

5.0 FIRE FIGHTING MEASURES

Extinguishing Media: Carbon dioxide, Foam and Dry Powder Fire Extinguishers. Do not use direct water jet on burning material.

Special Fire Fighting Procedures: Wear protective clothing. Avoid inhalation of vapours.

Specific Hazards: The fumes may be toxic or contain hazardous vapour, especially in enclosed spaces. The hazardous vapour may contain vapourised Frankincense oil which is very irritating to the eyes and throat, or poisonous oxides of carbon.

Protective Measures: In fire, closed containers may build up pressure when exposed to heat and should be cooled with water spray.

6.0 ACCIDENTAL RELEASE MEASURES

Personal Precautions: Maintain good occupational and personal hygiene. Avoid contact with skin and eyes. Do not inhale any vapourised oil.

Environmental Precautions: Do not discharge directly into drains or soil. Keep away from surface and ground water.

Spill Clean Up Methods: Soak up spillage with sand or other inert material. Transfer soaked material to suitable waste container and dispose according to local laws and regulations.

7.0 HANDLING AND STORAGE

Usage Precautions: Apply good manufacturing and industrial hygiene practices by ensuring proper workplace ventilation. Observe good personal hygiene, and do not eat, drink, or smoke whilst handling.

Storage Precautions: Store in tightly closed original container, in a cool, dry, and ventilated area away from heat sources and protected from light. Keep air contact with the oil to a minimum, especially during long-term storage. A combination of water, air and certain metals may accelerate oil degradation. Prolonged exposure to light may cause polymerization, colour change and loss of fragrance intensity.

8.0 EXPOSURE CONTROLS AND PERSONAL PROTECTIVE EQUIPMENT

PPE: Gloves, Safety Goggles

Engineering Measures: Ensure good ventilation of working area.

Respiratory Equipment: As required. Avoid breathing product vapour.

Hand Protection: Avoid all skin contact. Use chemically resistant gloves if required.
